

FOR NRIS IN THE UAE

Your life in two countries. One secure vault.

Property and savings in India. Work, home and paperwork in the UAE. Family in both. Soult keeps it in one place and makes sure the people you choose can reach it when it matters.

SOUND FAMILIAR?

Living abroad splits your life across two countries.

Your assets are back home

Property papers, NRE/NRO accounts, PF, LIC and mutual funds, spread across apps and a cupboard in India.

Your parents are in India

Their medical reports and policies matter to you too, a flight away.

UAE paperwork never stops

Passport, visa, Emirates ID, tenancy, insurance. Soult reminds you before passport, visa and insurance renewals.

If something happens here

Your family in India will know what you own, where it is, and who to call.
